Attachment 2

Unit Managers' Meeting  
200 West Area Ash Pit Demolition Site Closure Plan  
2440 Stevens Center Place, Room 2100  
Richland, Washington

Meeting Held August 16, 1994  
From 8:00 to 9:00 a.m.

Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The July 20, 1994, Unit Managers' Meeting Minutes were reviewed and signed by the Unit Managers.

2. Status Action Items:

-No Open Action Items

There was no discussion.

3. Status Closure Activities:

-Status NOD Comments (On Schedule)

WHC (D. M. Korematsu-Olund) stated that WHC Commercial Analytical Services has not received the analytical results for the July 13, 1994 sampling effort. WHC (F. A. Ruck III) stated that WHC would inform Ecology on the progress of the laboratory analysis.

WHC (D. M. Korematsu-Olund) stated that the draft 200 West Area Ash Pit Demolition Site (Ash Pit) and the 218 E-8 Borrow Pit Demolition Site (218 E-8) closure plans revision 1 were sent out for concurrent RL and WHC review on August 11, 1994. Ecology received a copy of both draft closure plan revisions on August 11, 1994. WHC review comments for both closure plans are due back on August 25, 1994. RL and Ecology review comments on the draft Ash Pit closure plan revision 1 is due August 25, 1994 and 218 E-8 review comments are due back to WHC by September 1, 1994.

Ecology (F. Ma) inquired why a letter from RL requesting a 15 day extension was sent to someone else at Ecology instead of him. WHC (F. A. Ruck III) stated that with Ecology's reorganization the letter was mistakenly sent to the wrong person. WHC (D. M. Korematsu-Olund) asked if Ecology was going to grant RL request for the 15 day extension to the 218 E-8 closure plan revision 1 submittal date. Ecology (F. Ma) agreed with RL request and would send a letter accepting the extension request.

4. New business:

-Open discussion

No new business.

5. Set new meeting date:

The next Unit Managers Meeting was scheduled for September 13, 1994  
8:00-9:00 a.m. Richland, WA.

Unit Managers' Meeting  
200 West Area Ash Pit Demolition Site Closure Plan  
2440 Stevens Center Place, Room 2100  
Richland, Washington

The figure consists of 11 small, vertically stacked line drawings. Each drawing represents a different stage of embryonic development. The sequence starts at the top with a single cell and progresses downwards through various stages of cleavage, including two-cell, four-cell, and morula stages, eventually leading to a more complex, segmented form at the bottom.
